

Dust

The Armenian Genocide

Verse 1

Unearth the Dust
Pull back the curtain, I must
Find out what happened to us
In those years
But you justify
Say you were tryna survive
What are you trying to hide?

Pre-Chorus

The truth is still alive
You can't keep it quiet

Chorus

Acknowledge us
That's all we want
Remember us
Their ghosts come back to haunt us
Make our memories your ransom
Give us the satisfaction
Of blood given for something
Or we risk becoming nothing

Verse 2

Unearth the dust
Pull back the curtain, I must
Find out what happened to us
All those years ago
But you say it's impossible
You say I'm breaking the law
And all for looking for

Pre-Chorus

The truth is on my side
You can't keep it silent

Chorus

Acknowledge us

That's all we want

Remember us

The ground calls out with their blood

Make our memories your ransom

Give us the satisfaction

Of blood given for something

Do you want us to be nothing?

Bridge

For my father's blood, I want his grave

For my mother's revenge, I want her
name

For my neighbors and friends

I want the dust they became

Of my father's house, there's just
picture frames

Of my mother's love, that's all that
remains

Of the vermin you exterminated, give
me a list

They're the ones that you hated,
Weren't allowed to exist

Verse 3

Unearth the dust

Pull back the curtain, I must

Find out what happened to us

In those years

But you don't even know who died

Deny this mass genocide

Why are you trying to hide?

Pre-Chorus

The truth is still alive

You can't keep me quiet

Chorus

Acknowledge us

That's all we want

Remember us

Look around, we're not yet dust

Make our memories your ransom

Give us the satisfaction

Of blood given for something

Do you remember nothing?
