

Glass

The Holocaust

Verse 1

For a world-wide war
This really feels one-sided
Isolation creeps up
No one knows what's happening

Pre-Chorus

Broken glass
They're walking on
Thin shards of glass

Verse 2

Final solution
Code for reason hidden in plain sight
Now they're all stars; finish the war
History will be right

Pre-Chorus

Broken glass
And those they know
Gift shards of glass

Chorus

He saw the smoke
He saw them go
And he said
Nothing
And she saw the blood
She saw the guns
And she said
Nothing
Oh, no, nothing
Oh, no, nothing
And she said
Nothing

Verse 3

How long can pictures play on a TV
screen
Before they're seen no more?
How long can the echo of their screams
Ring out in their ears?

Pre-Chorus

Broken glass
Still in their skin
These shards of glass

Chorus

They saw the smoke
They saw them go
And they said
Nothing
And they saw the blood
They saw the guns
And they said
Nothing
Oh, no, nothing
Oh, no, nothing
And they said
Nothing

Bridge

If they didn't see it
Did it really happen?
No one knows how to see
If their eyes were open
Would they do anything?
They've all got their own demons

If they didn't see it
Did it really happen?
No one knows how to see
And if their eyes were open
Would they do anything?
They've all got their own demons

If we didn't see it
Then it didn't happen
Close our eyes and we can't see (We
didn't know, we didn't know)
Even if our eyes were open (How could
we know)
Would we do anything? (How could we
know)
We've all got our own demons (How
could we know)
Our own demons

Chorus

We saw the smoke
We saw them go
And we said
Nothing
And we saw the blood
We saw the guns
And we said

We saw the rain
We saw their pain
And we said
Nothing
And we did our best
We know the rest
And we said
Nothing
Oh, no, nothing
Oh, no, nothing
And we said
Nothing
Oh, no, nothing
Oh, no, nothing
Never again
Nothing
